

2023 STANDARDS PER CLASSIFICATION

Classification VIII – Beadwork and Quillwork

Judging in this Classification will evaluate the source and quality of materials used, as well as the combination of form, design, and technique.

The *traditional* category is meant to encourage artists working within tribal traditions and with traditional materials.

The *contemporary* category is meant to encourage artists to utilize innovations from conception through fabrication.

In 2023, we implemented the “Boundary” Category within each division. This Category is designed to give jurors and Class Managers more options when looking at pieces that do not necessarily conform to already existing Categories but use the same techniques and materials.
